Norman, OK

UI/UX Designer and Front-End Developer

Nov 2025

- Executed the design process from ideation to deployment, beginning with low-fidelity sketching, progressing to high-fidelity prototypes in Figma, and culminating in clean, self-developed front-end code.
- Significantly improved content readability by implementing strategic max-width properties on all text containers (600px/800px), a key User Experience (UX) decision for optimal eye-tracking.

Jen's Jazzy Jams

Norman, OK

Campaign Strategist & Visual Designer

Mar 2025 - Apr 2025

- Created an advertising campaign for a fictional product, resulting in a projected \$1 million in sales over six months, by creating a high-impact billboard advertisement in Canva and establishing the campaign's overall budget.
- Maintained financial viability and resource allocation by successfully managing a simulated \$100,000 budget by establishing spending parameters and prioritizing media investment for core visual assets.
